Health Information & Libraries Journal

Health Information and Libraries Journal (HILJ) is a European journal of international and interdisciplinary interest to practitioners, researchers, and students in the library and health sectors. Its objectives include promoting debate about new health information developments with an emphasis on communicating evidence-based information both in the management and support of healthcare services. The editors welcome original health information articles on current practice, research projects or the development of new resources or services. Review articles are also welcome. Health Information and Libraries Journal is the official journal of the Health Libraries Group of the UK Chartered Institute of Library and Information Professionals. The scope of the journal encompasses (but is not restricted to):

[-] Healthcare librarians and the delivery of critical appraisal training: barriers to involvement.

Published 2011 - Mar

BACKGROUND Many healthcare librarians are undertaking training in critical appraisal but a significant number are not cascading the training to their end-users. **OBJECTIVES** To examine the barriers to healthcare librarian involvement in delivering critical appraisal training. **METHODS** A questionnaire survey of 57 library services across 48 NHS Trust Library Services in north west England followed up with 21 semi-structured interviews. **RESULTS** Two types of barriers were noted: extrinsic barriers (organisational, environmental, training, role expectations) and intrinsic barriers (knowledge, skills, attitude). **CONCLUSIONS** These barriers are not mutually exclusive and by overcoming one of them it does not necessarily follow that healthcare librarians will engage in delivering critical appraisal skills training. The challenge lies in developing strategies to deal effectively with these barriers to encourage and support healthcare librarians in the delivery of critical appraisal training at a level at which they feel confident and able.

Find journals

Find authors

Find articles

Welcome to Jane

Have you recently written a paper, but you're not sure to which journal you should submit it? Or maybe you want to find relevant articles to cite in your paper? Or are you an editor, and do you need to find reviewers for a particular paper? Jane can help!

Just enter the title and/or abstract of the paper in the box, and click on 'Find journals', 'Find authors' or 'Find Articles'. Jane will then compare your document to millions of documents in *PubMed* to find the best matching journals, authors or articles.

Keyword search

Instead of using a title or abstract, you can also search using a keyword search, similar to popular web search engines. Click [here](#) to search using keywords.

Beware of predatory journals

JANE relies on the data in PubMed, which can contain papers from predatory journals, and therefore these journals can appear in JANE's results. To help identify high-quality journals, JANE now tags journals that are currently indexed in MEDLINE, and open access journals approved by the Directory of Open Access Journals (DOAJ).

Manuscript title

The Application of TED Talk Strategies in Freshmen Library Orientation Lecture

Manuscript text

Freshmen library orientation lecture (FLOL) can assist students to capitalize on the library's resources and services. FLOL faces a variety of problems, such as two-dimensional and unappealing teaching mode. To improve the quality of FLOL in Xiamen University library (China), this research employed TED talk's strategies (principles and skills), which include readers' demand as the main factor, and readers caring and library innovation as the theme to build an emotional bond between library and readers. The lecture was customized to fit the readers' needs. However, the readers' needs were examined based on the KANO model. Lecture time was optimized with humorous teaching methods and several cases. Successful application of TED talk strategies in FLOL will attract students to the library, which is beneficial to university education.

Outcome: Rejected (im.).

Motivation:

The manuscript stayed 30 days under evaluation and it was rejected since the topic was not broad enough to the journal. In the rejection, they mentioned that their contacted Nature medicine editors and they suggested the transference to that journal.

Journal title (click to go to journal page)	Average duration			Review reports (1 st review rnd.)				
	1 st rev. rnd	Tot. handling	Im. rejection	Number	Quality	Overall rating	Outcome	Year
PLoS ONE	4.4 weeks	4.4 weeks	n/a	2	2 (moderate)	2 (moderate)	Rejected	2019
	Motivation: The reviewer commented that the results are over-interpreted and the conclusions are not supported by data. However, the reviewer didn't offer reason.							
PLoS ONE	13.1 weeks	13.1 weeks	n/a	1	1 (bad)	1 (bad)	Rejected	2018
	Motivation: I submitted my manuscript and the initial process was very slow. I got periodic responses that appeared to be automatic form letters and/or that they were having trouble finding an academic editor and reviewers. Eventually I received a rejection. However that decision was based on the comments from 1 reviewer and it was apparent that the paper was not read, nor were the comments about the content of the submission nor were the reasons for rejection, logical. Consequently I appealed the decision. That was a mistake because it took an additional 7 months to get a decision. I would get periodic emails apologizing for the delays indicating that a decision would come soon. Eventually following numerous email exchanges, I demanded that a decision be made. A week later the paper was rejected based on the opinion of one reviewer.. Having published numerous papers over the years I was disappointed but can accept the decisions. However no paper should take 10 months from submission to final decision, and one would expect that if reviews come back that are poor themselves, an additional reviewer would be identified.							
PLoS ONE	7.0 weeks	10.9 weeks	n/a	2	4 (very good)	4 (very good)	Accepted	2019
PLoS ONE	7.9 weeks	15.4 weeks	n/a	2	4 (very good)	4 (very good)	Accepted	2019
	Motivation: I have seen comments stating that the Plos One editorial process is quite slow, but while it did take a while for us to publish, it had more to do with addressing the reviewers comments than the editorial process itself. The comments were quite helpful, and the manuscript was greatly improved because of them. It was quite clear that our manuscript was evaluated by specialists in our subject area.							
PLoS ONE	6.1 weeks	12.6 weeks	n/a	3	2 (moderate)	1 (bad)	Rejected	2019

规避掠夺性期刊

规避掠夺性期刊

- 掠夺性期刊出现的原因
- 掠夺性期刊的特点
- 如何规避掠夺性期刊

期刊模式

	传统期刊
作者成本	不需要支付费用
著作权	出版商拥有著作权
使用权	只限订阅商户使用

结果：出版商的垄断。

美国研究图书馆学的调查：自1986年至2002年，美国的研究图书馆期刊经费增加了227%，但是订购的期刊种数却只增加了9%。

期刊模式

	传统期刊	OA期刊
作者成本	不需要支付费用	支付文章处理费
著作权	出版商拥有著作权	作者拥有著作权
使用权	只限订阅商户使用	免费开放

开放获取： open access，指 学术文献在Internet公众领域里可以被免费使用，包括检索、阅读、下载、复制、传递、打印全文信息。

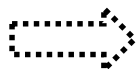

选择OA期刊的优势

- 提高学术影响力，增加潜在读者
- 提升文章被引次数
- 促进学术传播
- 避免侵权问题

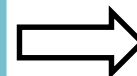

掠夺性期刊的出现

OA期刊
作者付费

黑心出版商嗅到了商机

邀稿

学者信以为真，一时
不察而投稿

收取高额的文章处理
费

不愿缴纳，则文章被
绑架

掠夺性期刊的特点

- 期刊，学术价值不高。
- 高额的文章处理费。
- 文章一旦投出去，基本就要不回来了。
- 文章不可一稿多投，如果转投其他期刊，则有重复发表的隐患。
- 付费发表在无学术价值的期刊上，不被学界认可，对个人名声有损。
- 付费出版后，文章又被利用做为吸引他人上钩的诱饵。

如何规避掠夺性期刊

- 向同行、前辈请教
- 参考学术社群平台：Research Gate
- 查查看

功能和特点

- 1 对自科版期刊引证报告(JCR)中全部期刊进行分区
- 2 提供大、小类两种学科分类体系的分区数据
- 3 提供分区数据检索、浏览等功能

2019

大类

地学

全部

默认

浏览期刊

期刊浏览

可按照学科分类、期刊等级（分区）来浏览各个学科、各个分区的期刊列表，点击期刊列表任意一本期刊可展开查看该本期刊的详细信息。

分类体系

小类学科体系基于Clarivate Analytics发布的JCR的学科；大类学科体系为地学、地学天文、环境科学、农林科学、工程技术、物理、化学、生物、数学、医学、社会科学、管理科学、综合性期刊等学科所构成的分类体系。

分区指标

3年平均IF：即期刊3年影响因子的平均值。

分区阈值

每个学科各期刊等级（分区）的期刊集合的最低3年平均IF。

Review期刊只占排名，不占分区名额。

学科影响因子

当年：学科所有期刊的当年影响因子（IF）的平均值。

最近3年：该学科所有期刊最近3年平均影响因子（IF）的平均值。

2019

输入期刊全称、JCR期刊简称或者ISSN自动模糊或精确匹配期刊

检索期刊

精确检索

如果输入的词为“期刊全称”或“ISSN号”的完整信息，系统自动视为精确检索，并直接返回该本期刊的精确检索结果的详细信息。

模糊检索

系统无直接匹配检索词的期刊，则系统返回包含该检索词的期刊列表。
